The so-called specialties or usually less stive charce were the features of to-day's tock market. The Grangers were comparaely neglected and all of them clos tionally lower. The active speculation in the Union Pacific stocks, in Brookiya Bapid Tranest, in Sugar Refining and in a number of othern appears to have run its course for the moment. Northern Pacific leaues and Peo-ple's Gas were the only leading shares that resived noteworthy attention. They were trong throughout, and People's Gas, in reports of a settlement of the dispute stween the company and the Indiana Natural less Company, closed 2% weent, higher than Ges Company, closed 256 Weent, higher than yesterday. This was the only important net gain recorded in the usually active list. Although a good-many stocks closed fractionally lower theo pesterday, it cannot be said that the market was lacking in firmness. The exceptionally strong reature was Metropolitan Street Hallway, which sold ex the quarterly cash dividend and so the right to subscribe for the new stock of the coverage to the artist of 333 %

stock of the company to the extent of 33% we cent, of present holdings. Other stocks that were in sufficient demand to advance the prices for them materially wer Ohio first assessment paid, Cleveland, Lorain and Wheeling issues, Consolidated Ice, Illinois Biteel, National Biscuit and New York Air Brake. There was a comparatively lively speculation in Wabash preferred on rumors of significant changes in the directory of the company at the approaching annual meeting. The only stock that was conspicuously weak was Manhattan Ballway. The closing out of a large part of the short interest in this stock seems to have induced fresh selling. One of the leading drawers of foreign, exchange an-mounced that the firm would have in transit before the end of the week \$1.375,000 in specie. making the total importation of this firm this season over \$4,000,000. In the late trading the speculation in Northern Pacific shares was stimulated by the publication of a very plausthis report that the management is likely to adopt the policy of establishing a preferred stock dividend reserve fund, equal to one year's dividend upon that stock, before paying any dividend upon the common shares. The sing was irregular, but in the main steady.

Woboken's Tax Rate Goes Un. The Commissioners of Taxes in Hoboken hav

fixed the tax rate in that city for 1898-99 at

2.48 for the old city district and 2.27 for the Weehawken, or annexed district. Last year the rate was six points lower in each district. The increase is attributed to recent improvements in the city's streets.
